

West Fork Recycle Center, a Going and Growing Concern

The West Fork Recycle Center is a busy place every Saturday morning from 9:00 am to Noon. It is easy to get to off of Campbell Rd and you always have plenty of help to unload all the products you recycle. Lori Marsh our director and all the volunteer help are friendly and courteous. We serve West Fork and the surrounding area and recycle tons of newspapers, cardboard, junk mail, tin and aluminum cans, plastic, oil. There are hundreds of books in Paul's Place that help finance book drives for our Library with the help of Friends of the Library. This is a great service for all our residents and our eco efforts. Lori is our only paid employee for the center. She opens the facility every Saturday and works with all the volunteers to keep recycled products separate and ready for delivery to the Washington County facility in Prairie Grove.

Lori needs a couple of people who would be willing to fill in for her on an occasional Saturday when she needs to have a day off. The work is easy, rewarding and there is a monetary compensation for being in charge when Lori is gone. If you are willing to work an occasional Saturday morning for Lori please contact City Hall, at 839-2342. Leave your name and number and Lori will contact you to answer any questions and give you additional details.

Thank you,
Charlie Rossetti
Mayor
